

BISS

SPONSOR PACKAGE

A woman in an orange shirt and blue skirt is riding a bicycle on a dirt path. A young child is sitting in the back seat. A large white bucket, likely containing flour, is attached to the back of the bicycle. The woman is smiling and looking towards the camera. In the background, there are green bushes and a small building with a red roof. A blue umbrella with the BISS logo is attached to the back of the bicycle.

We, BISS Bakeries and the vulnerable who have been given a chance thanks to you, would like to thank you very much for sponsoring a bakery. As a thank you, we would like to give something back and want you to stay connected to the bakery.

BISS Bakeries Uganda

We have selected someone!

First of all, thank you again for your donation. Thanks to you, we have been able to train a new candidate, allowing us to create work and income for five people. The candidate who can start a bakery thanks to you is Lukia!

About Lukia

Lukia is a 25 year old woman and has 5 children. One of her children has a disability, namely cerebral palsy (CP). This is a posture and movement disorder caused by brain damage. The hospital costs are very expensive, by starting a bakery Lukia has the opportunity to pay the hospital costs and give her child a better life.

Lukia was pregnant during training and on the last day of training she gave birth to her first child! Speaking of perseverance... By the way, she came to the graduation ceremony on the last day with her less than 24-hour-old child. The graduation ceremony took place on August 18, in which her parents proudly participated. In the meantime, the oven has already been installed in her bakery

Lukia is extremely grateful! Thank you for your donation.
